

“SOLE SOURCE” PROCUREMENT JUSTIFICATION

Sole source purchases are goods and services available from only one vendor. There may be just one vendor because of patents or copyrights or simply because the vendor is the only one which supplies the good or service. Using Department must provide a written explanation as to why only this particular product/service is acceptable and why no other will be suitable or acceptable to meet the need. A quote must accompany this form.

Department name: DETENTION

1. Name of product or service: Maintenance for 2 G Generator

2. Name of product manufacturer: 2 G

3. Name of “sole” product supplier or service provider: 2 G Energy

4. Describe in general terms the product/service you are requesting and the intended application.

We are looking to enter into an agreement with 2 G Energy for annual maintenance for our 2G Combination Heat and Power unit purchased by the County for Detention at a cost of \$97,682.53 annually. This is a proprietary piece of equipment purchase by the County and is not serviceable by traditional manufacturers such as Caterpillar or Cummins N-Power.

5. Describe the unique features/capabilities/characteristics that distinguish it from other products/services.

The equipment and technology purchased by the County for Detention is proprietary and currently 2G is the only authorized service provider for 2G cogeneration power plants.

6. How did you determine there was only one source for the product or service? Provide information on the research that was performed to locate suppliers for this product(s) or service(s). (Please furnish names, addresses and other documentation).

County facilities provided preliminary research on options. Our warranty states this. Also brief conversations with Wagner Equipment (CAT Dealer) Cummins Sales and Service both in El Paso. No local (Las Cruces) options.

7. What product supplier or service provider has your Department used until now to satisfy similar requirements?

2G at a greater per visit cost to the County.

To Whom it may Concern

The 2G group of companies is a leading international manufacturer of cogeneration power plants (CHP plants) as well as associated supplementary components, and with its national and international affiliated companies, it covers the entire value chain from the product development to the long-term maintenance of the plants.

2G Energy Inc is the affiliated company that is responsible for the distribution of the contract goods, the installation, the start-up as well as the maintenance and repair of CHP plants within the United State of America, Canada and Puerto Rico.

2G Energy Inc is responsible to appoint qualified authorized service providers within the various territories where there is an installed based or provide services to end customers directly.

At this time 2G Energy Inc is the only authorized service provider for 2G cogeneration power plants in your territory.

I trust that you understand our approach.

Please don't hesitate to contact me with any questions or concerns.
