INDEPENDENT AUDITOR'S REPORT

The Board of County Commissioners
State of New Mexico, Doña Ana County and
Mr. Brian Colón, State Auditor
State of New Mexico, Office of the State Auditor

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparisons for the general fund and major special revenue funds of Doña Ana County (the County), as of and for the year ended June 30, 2020, and the related notes to the financial statements which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County, as of June 30, 2020, and the respective changes in financial position and where applicable, cash flows thereof and the respective budgetary comparisons for the general fund and major special revenue funds for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 20 to the financial statements, the 2019 beginning balance of net position has been restated to correct the pollution remediation liability. Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, as listed in the table of contents, and the schedules of the County's proportionate share of the net pension and OPEB liabilities and the County's contributions, as listed as "Required Supplementary Information" in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements, that collectively comprise the County's basic financial statements. The combining and individual fund financial statements and the schedule of changes in the fiduciary assets and liabilities-agency funds, as listed in the table of contents, as supplementary information, are presented for purposes of additional analysis and are not required part of the basic financial statements.

The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis and is not required part of the basic financial statements. The other schedules, as required by 2.2.2 NMAC, as listed as other supplementary information in the table of contents, are also presented for purposes of additional analysis and are not a required part of the basic financial statements.

The statements and schedules, listed as supplementary and other supplementary information in the table of contents, are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the statements and schedules were fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2020 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control over financial reporting and compliance.

DOÑA ANA COUNTY
MANAGEMENT DISCUSSION AND ANALYSIS (UNAUDITED)
FOR THE YEAR ENDED JUNE 30, 2020**

Doña Ana County's management discussion and analysis presents an overview of the County's financial activities for the fiscal year ended June 30, 2020. Please read it in conjunction with Doña Ana County's financial statements, as identified in the table of contents.

FINANCIAL HIGHLIGHTS

- The County completed fiscal year 2020 with \$342,035,788 in total assets; this is roughly a 5% increase in assets when compared to the \$326,812,903 in fiscal year 2019. Total liabilities for net position increased by roughly 4% or \$5,198,783 to \$146,438,072; while total net position increased by roughly 4% or \$7,655,105 to complete the fiscal year at \$209,058,753.
- Net Position for Governmental Activities increased 5% or \$8,545,187 to end the fiscal year at \$175,149,807; while Business-Type Activities decreased by 3% or \$890,082 for a fiscal year net position balance of \$33,908,946. Overall revenues increased by 7% to \$159,278,404 and expenditures increased by roughly 10% to \$155,303,228.
- The County's financial analysis of County Governmental Funds indicates a decrease in total assets of \$2,818,659 or 2% to \$131,412,869; total liabilities decreased by \$7,000,258 or 24%, while total fund balance increased by \$4,181,599.
- Total bonded debt at June 30, 2020 for the County was \$14,317,000.

OVERVIEW OF THE FINANCIAL STATEMENTS

The discussion and analysis are intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements

The *government-wide financial statements* consist of two statements and are designed to provide readers with a broad overview of the County's finances in a manner similar to a private-sector business.

The *Statement of Position* presents information on all the County's assets and liabilities, with the difference between the two reported as net position.

The *Statement of Activities* presents information showing how the County's net position changed during fiscal year 2020. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned and unused vacation leave).

**STATE OF NEW MEXICO
DOÑA ANA COUNTY
MANAGEMENT DISCUSSION AND ANALYSIS (UNAUDITED)
FOR THE YEAR ENDED JUNE 30, 2020**

Both of these financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include General Government, Public Safety, Public Works, Health and Welfare, and Community Development. The business-type activities of the County include Water, Wastewater, and Fleet Funds.

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental Funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County adopts an annual appropriated budget for its general, special revenue, debt service and capital projects funds. A budgetary comparison statement has been provided for these funds to demonstrate budgetary compliance.

The basic governmental fund financial statements are identified in the table of contents of this report.

Proprietary Fund

The County maintains two types of proprietary funds. *Enterprise funds* are used to report the same function presented as business-type activities in the government-wide financial statements. The County uses enterprise funds to account for the fiscal activities relating to various Water and Wastewater Utilities, as well as operations. An internal service fund is utilized to charge costs of fleet maintenance to individual funds.

The basic proprietary fund financial statements are identified in the table of contents of this report.

**STATE OF NEW MEXICO
DOÑA ANA COUNTY
MANAGEMENT DISCUSSION AND ANALYSIS (UNAUDITED)
FOR THE YEAR ENDED JUNE 30, 2020**

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resources of those funds are not available to support the County's own programs.

The basic fiduciary fund financial statements are identified in the table of contents of this report.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are identified in the table of contents of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. Required supplementary information can be found in this report, as identified in the table of contents.

The combining statements referred to earlier in connection with Nonmajor funds and Nonmajor proprietary funds are presented in the supplementary information section of this report. Combining schedules are identified in the table of contents of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS (Broad Overview of Finances)

The County implemented the new financial reporting model required by Accounting Standards Board Statement No. 34 in fiscal year ended June 30, 2003. Over time, as year-to-year financial information is accumulated on a consistent basis, changes in net position may be observed and used to discuss the changing financial position of the County, as a whole.

The largest portion of the County's net assets reflects its investment in capital assets (i.e., land, land improvements, buildings, equipment, and utility infrastructure); less any related outstanding debt used to acquire those assets. The County uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although, the County's investment in its capital assets is reported net of related debt, it should be noted that their debt needed to be repaid must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Governmental Activities

Governmental activities increased the County's net position by \$8,545,187 to \$175,149,807.

Business-Type Activities

Net position of business-type activities decreased by \$890,082 to \$33,908,946 at June 30, 2020. There were no significant changes to the types of services provided by the County's enterprise funds during fiscal year 2020.

Proprietary Funds

The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail. Proprietary funds are business-type funds, which include Water and Wastewater Systems. The County's Internal Service Fund is also included as a proprietary fund; however, it is considered part of governmental activities for the government-wide financial statements.

Total net position of proprietary funds at the end of the year amounted to \$33,908,946.

Other factors concerning the finances of these funds have been addressed in the discussion of the County's business-type activities and capital assets.

Economic Outlook

The “Flash Assessment Predictive Modeling,” created by the CELABS in Albuquerque, New Mexico was conducted to estimate the job losses due to COVID-19 over the next five years in Doña Ana County. In total, 38,095 jobs are expected to be lost over the next five years, 29,022 (76%) of which are a direct result of COVID-19 impacts. Of that, it was predicted that 19,429 would return organically. Another 1,500 jobs would be created as a result of existing programmatic efforts by MVEDA. Together, the five-year predicted shortfall to make up for the COVID-19 related job losses would be 8,093 jobs. The County has applied for EDA CARES grant requests funding to address this gap. The funding will assist in evaluating and implementing economic development programs and theaters (job creators) that will assist Doña Ana County in its recovery from COVID-19 and return to pre-COVID-19 equivalent job numbers within a period of five years.

**STATE OF NEW MEXICO
DOÑA ANA COUNTY
MANAGEMENT DISCUSSION AND ANALYSIS (UNAUDITED)
FOR THE YEAR ENDED JUNE 30, 2020**

The County is expecting to lose 39,000 jobs over the next five years due to the pandemic. Estimated permanent job losses are 19,000 and 20,000 projected over time. The heaviest burdens are the food service, hospitality, health care and social assistance.

However, the County’s recent gross receipt tax revenue from March showed surprisingly growth when compared to prior year. The County is currently working with MVEDA and Border Industrial alliance to grow the economy.

Furthermore, the interest rate on new Mortgages are at 12-year low. An average of 2.78 % versus 3.9% in prior years. Which caused buyers to buy and build. Subdivisions lots are selling fast throughout the City. During 2020 and average of 300 homes were available for inventory when in prior years normally there is an inventory of 3,000 homes. Therefore, we will expect to see an increase in Property Taxes.

RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE
TO STATEMENT OF NET POSITION
AS OF JUNE 30, 2020**

Amount reported for governmental activities in the statement of net position are different because:

Total fund balance - total governmental funds	\$ 109,462,391
Capital assets used in governmental activities are not current financial resources and therefore are not reported in the governmental funds balance sheet (less Internal Service Funds).	174,165,420
Internal service funds are used by management to charge the cost of certain activities, such as insurance and fleet management to individual funds. The assets and liabilities of the internal service funds are included in governmental activities in the government-wide statement of net position. Internal Service Fund balances not included in other reconciling items:	1,292,438
Long-term liabilities are not due and payable in the current period and, therefore, they are not reported in the governmental funds balance sheet:	
Bonds and notes payable	(18,857,314)
Compensated absences (less Internal Service Funds)	(2,284,501)
Contingent liabilities	(563,500)
Pollution remediation	(632,500)
Bond underwriter premium, net of accumulated amortization	(290,648)
Net pension related deferrals and liability	(66,125,036)
Net OPEB related deferrals and liability	(24,275,558)
Other current liabilities (bonds payable) are not available to pay for current period expenditures and therefore are deferred in the funds:	
Accrued interest payable	(101,824)
Bonds payable	(1,345,199)
Compensated absences (less Internal Service Funds)	(3,807,503)
Revenues not collected within sixty days after year end are considered "available" revenues and are considered to be "unavailable" revenues in the fund financial statements, but are considered revenue in the Statement of Activities:	
Property taxes	3,667,306
Derived tax revenue	4,845,835
Net position of governmental activities	\$ <u>175,149,807</u>

RECONCILIATION OF THE STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES
IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2020**

Amount reported for governmental activities in the statement of activities are different because:

Net change in fund balance - total governmental funds	\$	14,084,177
---	----	------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.

Capital expenditures recorded in capital outlay		23,397,699
Capital expenditures recorded in other expense lines		113,571

In the Statement of Activities, a (loss)/gain is recorded for assets that are removed from service that are not fully depreciated. Thus, the change in net position differs from the change in fund balance by the amount of (loss)/gain recorded for deleted capital assets.		(38,696)
---	--	----------

Depreciation expense on capital assets, excluding internal service fleet fund, is reported in the government-wide statement of activities and changes in net position, but they do not require the use of current financial resources. Therefore depreciation expense is not reported as expenditure in governmental funds.		(20,606,839)
---	--	--------------

Internal service funds are used by management to charge the costs of certain activities, such as insurance and fleet management to individual funds. The net change of the internal service funds resulting from transactions not recorded with governmental funds.		(936,699)
---	--	-----------

The issuance of long-term debt (e.g. bonds, notes, capital leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effect of premiums and similar items when debt is first issued, whereas the amounts are deferred and amortized in the statement of activities.

Amortization of bond premiums		27,762
Change in accrued interest		9,459
Change in noncurrent and current compensated absences		(891,648)
Issuance of long-term debt		(4,592,145)
Principal payments on long-term debt payable		1,571,617

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Pension expense		(9,804,832)
OPEB expense		(1,552,953)

Revenues in the Statement of Activities that do not provide current financial resources are not reported as revenue in the funds:

Change in deferred inflows related to property taxes		251,573
Change in deferred inflows related to derived tax revenue		299,286
Change in contingent liability		486,500
Change in pollution remediation		3,047,429

Rounding		(3)
Change in net position of governmental activities	\$	4,865,258

DOÑA ANA COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2020**

NOTE 1 – ENTITY AND SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

The function of Doña Ana County is briefly addressed in the grant of powers provided to all New Mexico counties pursuant to state statute 4-37-1 NMSA 1978. The function is "...to provide for the safety, preserve the health, promote the prosperity, and improve the morals, order, comfort, and convenience of the county or its inhabitants..." The County operates under a Commission form of government rule, which oversees:

- the assessment, collection, and distribution of ad valorem taxes by an elected assessor and treasurer;
- law enforcement by an elected sheriff;
- recording and filing by an elected county clerk and elected probate judge;
- fire protection by volunteer fire departments;
- road maintenance by an appointed road superintendent;
- purchasing by an appointed purchasing agent;
- indigent hospital care by an appointed indigent coordinator;
- administrative services by an appointed county manager, and
- planning, health, welfare, recreation, and cultural affairs by appointed citizen advisory boards.

The financial statements of the County have been prepared in conformity with U.S. generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The County's most significant accounting policies are described below.

A. Reporting Entity

The financial statements of the County encompass the activities of the County Commission, County Clerk, Tax Assessor, County Treasurer, Sheriff; and Probate Judge. The commission activity includes the function of the County Manager's office, the County Road Superintendent, the County Purchasing Agent, the Indigent Claims Coordinator, and the volunteer fire districts throughout the county.

In evaluating how to define the County, for financial reporting purposes, management has considered all potential component units. The decision to include any potential component units in the financial reporting entity was made by applying the criteria set forth in GASB No. 14 and No. 61. Blended component units, although legally separate entities, are in substance part of the government's operations. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

The basic-but not the only-criterion for including a potential component unit within the reporting entity is the governing body's ability to exercise oversight responsibility. The most significant manifestation of this ability is financial interdependency. Other manifestations of the ability to exercise oversight responsibility include, but are not limited to, the selection of governing authority, the designation of management, the ability to significantly influence operations, and accountability for fiscal matters.

**STATE OF NEW MEXICO
DOÑA ANA COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2020**

A second criterion used in evaluating potential component units is the scope of public service. Application of this criterion involves considering whether the activity benefits the government and/or its citizens. A third criterion used to evaluate potential component units for inclusion or exclusion from the reporting entity is the existence of special financing relationships, regardless of whether the government is able to exercise oversight responsibilities.

Finally, the nature and significance of a potential component unit to the primary government could warrant its inclusion within the reporting entity. Based upon the application of these criteria, there were no component units identified as needing to be disclosed or presented as part of the reporting entity.

B. Basis of Presentation

Government-Wide Statements – The Statement of Net Position and the Statement of Activities display information about the government (the County). These statements include the financial activities of the overall government, except for fiduciary activities. The statements also distinguish between the governmental and business-type activities of the County. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The Statement of Activities presents a comparison between direct expenses and program revenues for the different business type activities of the County and for each function of the County's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's enterprise funds and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Fund Financial Statements – The fund financial statements provide information about the County's funds, including its fiduciary funds. Separate statements for each fund category (governmental, proprietary, and fiduciary) are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

**STATE OF NEW MEXICO
DOÑA ANA COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2020**

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The County reports the *general fund* as a major governmental fund. This is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

In addition, the County reports the following other major funds:

Governmental funds

- Special Revenue Fund – *State Appropriations (23111)* accounts for various appropriations from the State Legislature for various projects.
- Debt Service Fund – accounts for the County's accumulation of resources for, and the payment of governmental fund debt principal and interest.

Proprietary funds

- Enterprise Fund – *South Central Wastewater (50044)* accounts for the activities of the wastewater utility, which provides service to the residents in Vado/Del Cerro, Chamberino, Berino and south-central areas of the County.

The County also reports the following fund types:

- *Internal Service Fund* accounts for fleet maintenance services provided to other departments of the government. Services are provided on a cost reimbursement basis.
- *Fiduciary Funds* account for monies held by the County in a custodial capacity. As a result, they do not report operations.

C. Measurement Focus and Basis of Accounting

Government-Wide, Propriety, and Fiduciary Fund Financial Statements – The government-wide, propriety, and fiduciary fund financial statements are reported using the economic resources measurement focus. The government-wide and propriety fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Property taxes are recognized as revenues in the year for which they are billed net of estimated refunds and uncollectible amounts.

Nonexchange transactions, in which the County gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and Donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are

**STATE OF NEW MEXICO
DOÑA ANA COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2020**

levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements – Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The County considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year-end. Property taxes, sales taxes, franchise taxes, licenses, and interest are considered to be susceptible to accrual. Revenue from derived taxes (sales taxes, gas taxes, and motor vehicle taxes) is recognized when the underlying transaction takes place (when the retail sale is generated). Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the County funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the County's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

D. Cash Equivalents

The County pools idle cash from all funds for the purpose of increasing income through investment activities. A "Pooled Cash" concept is used in maintaining the cash and investment accounts in the accounting records. Under this method, all cash is pooled for investment purposes and each fund has equity in the pooled amount. All amounts included in pooled cash and investments are considered to be cash equivalents for the purposes of the statement of cash flows, except for certificates of deposit or other investments that have original maturities of more than 90 days.

E. Investments

The County's investments are regulated by state law as well as by guidelines and rules promulgated by the State Investment Council and the State Treasurer. All investments are generally highly liquid in nature and are integrated with cash on the financial statements with appropriate disclosure. Investments are stated at fair value, which is determined using selected bases. Certificates of deposit are reported at carrying amount, which reasonably estimates fair value. Investments in a U.S. Treasury Fund and repurchase agreements are valued at the last reported sales price at current exchange rates. Additional cash, investment information, and fair values are presented in Note 2.

The County also participates in the State Treasurer Local Government Investment Pool. State law and regulations regulate this pool. Investment in the pool is reported at carrying amount, which reasonably estimates fair value.

**STATE OF NEW MEXICO
DOÑA ANA COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2020**

F. Receivables and Payables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. In the government-wide and governmental fund financial statements, delinquent property taxes are recorded as revenue when levied, net of estimated refunds and uncollectable amounts.

G. Inventories and Prepaid Items

Inventories in governmental funds consist of expendable supplies held for consumption and are valued at cost using a first-in, first-out (FIFO) method. Expendable supplies are accounted for using the consumption method. Proprietary fund inventories are recorded at the lower of cost or market on a first-in, first-out basis, and consist of operating supplies held for use in operations and are recorded as expenditures when consumed rather than when purchased. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

H. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Pursuant to the implementation of GASB Statement No. 34, the historical cost of infrastructure assets, (retroactive to 1979) are included as part of the governmental capital assets reported in the government wide statements. Information technology equipment including software is being capitalized and included in furniture, fixtures and equipment in accordance with NMAC 2.20.1.9 C (5). Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant, and equipment of the primary government are depreciated using the straight-line method over the following estimated useful lives:

Asset Type	Years
Land improvements	10
Buildings and improvements	10 - 40
Furniture, fixtures, and equipment	3-15
Vehicles	5 - 15
Infrastructure	5-50

**STATE OF NEW MEXICO
DOÑA ANA COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2020**

I. Unearned Revenue

The County reports unearned revenue on its financial statements. When resources are received in advance of charges for services being earned are in advance of any eligibility requirement other than a time requirement being met for government-mandated or voluntary nonexchange transactions (i.e. for intergovernmental revenues), a liability is reported for the unearned revenue.

J. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position and/or the balance sheet for governmental funds will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position/fund balance that applies to a future period and so will not be recognized as an expense or expenditure until then.

The County has the following deferred outflows of resources during fiscal year 2020 on the government wide financials:

Deferred Outflows of Resources - Government-Wide	
Pension deferrals	\$ 15,897,089
OPEB deferrals	4,312,467
Total deferred outflows of resources	\$ 20,209,556

In addition to liabilities, the statement of net position and/or the balance sheet for the governmental funds will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position/fund balance that applied to a future period and so will not be recognized until then. The County has the following deferred inflows of resources during fiscal year 2020 on the fund financials:

Deferred Inflows of Resources - Fund Financials	
Property tax revenue	\$ 3,667,306
Derived tax revenues	4,845,835
Total deferred inflows of resources	\$ 8,513,141

The County has the following deferred inflows of resources during fiscal year 2020 on the government wide financials:

Deferred Inflows of Resources - Government-Wide	
Pension deferrals	\$ 4,592,237
OPEB deferrals	2,156,291
Total deferred inflows of resources	\$ 6,748,528

K. Compensated Absences

Accrued annual leave, sick leave, and compensatory time are the components of accrued compensated absences. An employee may not carry over more than 240 hours of vacation leave into a new calendar year, nor receive payment for more than 288 hours upon separation. Under a human resources policy

**STATE OF NEW MEXICO
DOÑA ANA COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2020**

adopted November 27, 1999, employees retiring under PERA, with a minimum of 15 years of County service, shall be paid for accrued sick leave hours, limited to a maximum of 600 hours, subject to a maximum cash payment of \$15,000. In addition, such employees shall be compensated for any unused sick leave hours accrued as of November 27, 1999, at the employee's pay rate in effect on that date. Compensatory time is accrued in full for non-exempt employees under the Fair Labor Standards Act.

L. Long-term Obligations

In the government-wide financial statements and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. For bonds issued after GASB 34 was implemented, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. For fund financial reporting, bond premiums, discounts as well as issuance costs, are recognized in the period the bonds are issued. Bond proceeds are reported as another financing source net of the applicable premium or discount. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

M. Net Position

Equity is classified as net position and displayed in three components on the government-wide financial statements as well as the proprietary fund financial statements:

- *Net investment in capital assets* – Net position invested in capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- *Restricted Net Position* – Consist of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) law through constitutional provisions or enabling legislation.
- *Unrestricted Net Position* – All other net position that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

N. GASB Statement 54

Beginning with fiscal year 2011, the County implemented GASB Statement No. 54, “Fund Balance Reporting and Governmental Fund Type Definitions.” This Statement provides more clearly defined fund balance categories to make the nature and extent of the constraints placed on a government’s fund balances more transparent. The following classifications describe the relative strength of the spending constraints:

- *Nonspendable* – Amounts not in a spendable form, such as prepaid expenses, inventories, or long-term portion of receivables or property held for resale, if the use of the proceeds from the

STATE OF NEW MEXICO
DOÑA ANA COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2020

collection/sale of property held for resale is not otherwise constrained. Nonspendable amounts also include amounts legally or contractually required to remain intact, such as the principal of a permanent fund.

- *Restricted* – Amounts constrained to specific purposes that are externally imposed or imposed by law through constitutional provisions or enabling legislation (such as taxpayers, grantors, bondholders, and higher levels of government).
- *Committed* – Amounts constrained to specific purposes by the governmental entity’s highest level of decision-making authority (the County Commission). To be reported as committed, amounts cannot be used for any other purpose unless the County Commission takes the same highest-level action to remove or change the constraint.
- *Assigned* – Amounts constrained by the County intends to be used for a specific purpose. Intent can be expressed by the governing body (County Commission) or an official or body to which the governing body delegates authority.
- *Unassigned* – Balances available for any purpose. Positive amounts are reported only in the general fund.

The New Mexico Department of Finance and Administration (DFA) requires that 3/12 of the FY2020 budgeted expenditures in the General Fund be restricted as subsequent-year expenditures to provide adequate cash reserves. Additionally, the DFA imposes a County Road Fund Reserve requirement for the County of 1/12 of the FY2020 total Road Fund budgeted expenditures. The General Fund includes the Road Fund, which has been reserved at 3/12. See the Schedule of Fund Balances, as listed in the table of contents.

The County Commission establishes (and modifies or rescinds) fund balance commitments by passage of a resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund (such as for special incentives). The County assigns 2020 fund balance for FY2020 projected budgetary deficit per GASB 54, Par 16. FY2020 and FY2020 budget (estimated revenues and expenditures) have no effect on GASB 54 net fund balance.

See the Schedule of Fund Balances as listed in the table of contents for additional information about fund balances.

When an expense is incurred for purposes for which both restricted and unrestricted fund balance is available, the County considers restricted funds to have been spent first. When an expense is incurred for which committed, assigned, or unassigned fund balances are available, the County considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless County Commission or the finance department has provided otherwise in its commitment or assignment actions.

O. Budgets and Budgetary Accounting

The County adopts budgets for each individual fund (governmental and proprietary). In late winter or early spring, the County prepares a budget calendar, thus starting the budgetary process for the upcoming July 1 fiscal year. Budget request forms are distributed to County departments and local service agencies with a specified completion date. Legally mandated advance notices are formally published for grant availability and other purposes once budget hearings have been scheduled. The budget hearings are then held with all County department heads and local service agency representatives. Generally, in late May or early June, a budget meeting is held for tentative approval of the completed budget. After tentative approval at the County level, the budget is submitted to the New Mexico Department of Finance and Administration (DFA) for approval of a temporary operational budget beginning July 1.

Immediately after July 1, when ending cash balances for the preceding fiscal year have been accurately ascertained, a final hearing is convened for finalization of the budget, and it is resubmitted to DFA for formal approval. None of the above budgetary processes are legally required to occur at any specified time; however, DFA requires that the time frame be such that they (DFA) render their final budget approval no later than September 1 of the budget year in question.

During the course of the fiscal year, the County prepares monthly budget reports. Under New Mexico State law, each year's budget appropriation legally lapses at year-end.

Budgetary Compliance – Budgetary control is required to be maintained at the individual fund level.

Actual fund revenues may be either over or under the budgeted amounts; however, the variance is required to be reasonable, particularly in the case of over-budgeted revenues. Major over-budgeted revenues require a budget amendment as soon as the extent of the shortage is reasonably ascertainable.

Budget Amendments – Budget increases and decreases can only be accomplished by Commission resolution, followed by DFA approval. Similarly, budget transfers must follow the same procedure.

Budgetary Basis – State law prescribes that the County's budget be prepared on the basis of cash receipts and cash expenditures. Therefore, budgetary comparisons shown in exhibits are prepared on a cash basis to compare actual revenues and expenditures with a cash basis budget as amended.

The accompanying Statements of Revenue, Expenditures and Changes in Fund Balance – Budget (Non-GAAP Budgetary Basis) and Actual, for the general fund and major special revenue funds, present comparisons of the legally adopted budget with actual data on a budgetary basis.

Since accounting principles applied for purposes of developing data on a budgetary basis differ significantly from those used to present financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) a reconciliation of resultant basis, perspective, equity and timing differences in the excess (deficiency) of revenues and other sources of financial resources for the year ended June 30, 2020 is presented. GAAP budgetary basis amounts and the financial statements on the GAAP basis by fund can be found on each individual budgetary statement.

P. Income Taxes

As a local government entity, the County is not subject to federal or state income taxes.

Q. Interfund Activity

Interfund activity is reported as loans, services provided, reimbursements, or transfers.

Loans are reported as interfund receivables and payables as appropriate and are subject to elimination upon consolidation. Services provided, deemed to be at market or near market rates, are treated as revenues and expenditures/expenses. Reimbursements are when one fund incurs a cost, charges the appropriate benefiting fund and reduces its related cost as a reimbursement. All other interfund transactions are treated as transfers. Transfers between governmental or between proprietary funds are netted as part of the reconciliation to the government-wide financial statements.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

R. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA's. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

State regulations require that uninsured demand deposits and deposit-type investments such as certificates of deposit be collateralized by the depository thrift or banking institution. At present, state statutes require that a minimum of fifty percent of uninsured balances on deposit with anyone institution must be collateralized, with higher requirements up to 100% for financially troubled institutions. Investments in repurchase agreements must be collateralized at 102% of the contract. In addition, some

Custodial Credit Risk Deposits - Custodial credit risk is the risk that in the event of a bank failure, the County funds may not be returned. The County does not have a deposit policy for custodial credit risk, other than following state statutes as set forth in the Public Money Act (Section 6-10-1 to 6-10-63, NMSA 1978).

As of June 30, 2020, the County's bank and investment balances of \$70,895,492 were exposed to custodial credit risk as follows:

Uninsured, collateralized with securities held by pledging financial institution's trust department or agent in the County's name.	\$ 46,429,735
Uninsured and uncollateralized	-
Total uninsured deposits	<u>\$ 46,429,735</u>

Custodial Credit Risk Investments - Custodial Credit Risk is the risk that, in the event of failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The County's investments are not exposed to custodial credit risk. All are fully collateralized, and the collateral is held in the County's name.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of the County's investment in a single issuer, of more than 5%. The County's investments are diversified to avoid including concentration of credit risk. With the exception of authorized pools, no more than 50% of the total investment portfolio is in one single security type or financial institution.

Credit Risk - The County's investments shall be in accordance with State Law 6-10-10 and 6-10-10.1 NMSA 1978, including but not limited to the following: Treasury Bills, Notes, Bonds, Strips, and US Government securities which are backed by the full faith and credit of the U.S. Government. Negotiable securities of the State of New Mexico or any county, municipality, or school district with the advice and consent of the Board of Finance per 6-10-44 NMSA 1978, 6-10-10 NMSA 1978, 6-10-10 NMSA 1978.

Interest Rate Risk - Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of the County investments. The County's investment policy follows New Mexico State Statute Section 6-10-36E (NMSA, 1978 Comp) requiring the interest rate on time deposits shall not be less than the rate fixed by the State Board of Finance, but in no case shall the rate of interest be less than one hundred percent of the asked price on United States Treasury bills of the same maturity on the day of deposit.

Foreign Currency Risk - Deposits and Investments - The County is not exposed to the risk that exchange rates will adversely affect the fair value of an investment as none of the investments pools or certificates of deposit are dominated in a foreign currency.

NOTE 3 – FAIR VALUE MEASUREMENT

The County holds investments that are measured at fair value on a recurring basis. Because investing is not a core part of the County's mission, the County determines that the disclosures related to these investments only need to be disaggregated by major type. The County chooses a table format for the fair value disclosures.

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles.

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. In determining this amount, three valuation techniques are available:

- **Market approach:** this uses prices generated for identical or similar assets or liabilities. The most common example is an investment in a public security traded in an active exchange such as the NYSE.
- **Cost approach:** this technique determines the amount required to replace the current asset. This approach may be ideal for valuing donations of capital assets or historical treasures.
- **Income approach:** this approach converts future amounts (such as cash flows) into a current discounted amount.

**STATE OF NEW MEXICO
DOÑA ANA COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2020**

Each of these valuation techniques requires inputs to calculate a fair value. Valuation techniques should be applied consistently, though a change may be appropriate in certain circumstances. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. GASB 72 establishes a hierarchy of inputs to the valuation techniques listed above.

The hierarchy is based on the valuation inputs used to measure the fair value of the asset. The hierarchy's three levels are as follows:

Level 1

Inputs are quoted prices (unadjusted) for identical assets or liabilities in active markets that a government can access at the measurement date. (Examples: equity securities traded on an open market, actively traded mutual funds, and US treasuries)

Level 2

Are significant other observable inputs

- a) Quoted prices for similar assets or liabilities in active markets.
- b) Quoted prices for identical or similar assets or liabilities in markets that are not active.
- c) Inputs other than quoted prices that are observable for the asset or liability, such as:
 1. Interest rates and yield curves observable at commonly quoted intervals,
 2. Implied volatilities, and
 3. Credit spreads.
- d) Market-corroborated inputs.

(Examples: a bond valued using market corroborated inputs such as yield curves, a bond valued using matrix pricing, and an interest rate swap valued using the LIBOR swap rate observed at commonly quoted intervals for the full term of the swap)

Level 3

Are significant unobservable inputs for an asset or liability (Examples: Commercial real estate valued using a forecast of cash flows based on a university's own data and an interest rate swap valued using data that is neither directly observable nor corroborated by observable market data)

See Note 2 for the County's recurring fair value measurements as of June 30, 2020.

NOTE 5 – PROPERTY TAXES

Property taxes attach as an unsubordinated enforceable lien on property as of January 1 of the assessment year. Current year taxes are levied within five days of the rate setting order received from New Mexico Department of Finance and Administration (7-38-32 thru 7-38-36). Tax bills are mailed by November 1, unless the Doña Ana County Assessor obtains a formal extension of time from the New Mexico Property Tax Division. Taxpayers have the option to pay in two equal installments due by the close of business November 10th and April 10th. Penalty and interest will be accrued after the delinquency due dates of December 10th and May 10th. In the event of a formal extension, the respective dates are correspondingly extended.

The County bills and collects its own taxes, as well as taxes for the State of New Mexico, city governments (Las Cruces, Hatch, Mesilla and Sunland Park), Doña Ana Branch Community College, Public School Districts (Las Cruces, Hatch and Gadsden) and Flood Districts (Lower Rio Grande and Hueco). In tax year 2020, the County charged the following mil rates:

<u>Tax District</u>	<u>Residential</u>	<u>Non-residential</u>
02 (Las Cruces-In)	0.031421	0.034554
03 (Las Cruces-Out)	0.023890	0.026693
04 Mesilla	0.024906	0.029033
11 (Hatch-In)	0.032111	0.034914
12 (Hatch-Out)	0.026651	0.029414
16 (Sunland Park-In)	0.037138	0.041007
17 Unincorporated (Anthony/Chaparral)	0.030544	0.033357
18 Incorporated (Anthony)	0.032639	0.035452

The County’s share of the property taxes equal approximately 35.71% of the total property taxes levied and is used for general governmental services and retirement of long-term debt. The statutory maximum rate for servicing long-term debt with property tax revenue is unlimited, although the total amount of outstanding debt at any one time is restricted by other factors.

The County is required to report all real property delinquencies in excess of three years to the New Mexico Property Tax Division. The State, in turn administers all subsequent collection actions and proceedings.

NMFA 1947-DW – Cleanup of Griggs Walnut Superfund Site

In January 2008, the County and the City of Las Cruces were approved under New Mexico Finance Authority Project No. 1947-DW for the clean-up of the Griggs Walnut superfund site. The County’s debt principal totaled \$1,478,798. The initial terms of the loan called for the funds to be fully drawn down by January 2011 with regular principal payments due beginning in May 2013. An extension was received in 2011 to allow for drawdown of the funds through June 2012. The terms of the note call for annual principal payments on May 1, for 20 years with semi-annual interest payments of 2% per annum.

The County began drawing funds on the note in October 2010 and expects to withdraw the full amount by the June 2012 closing date. This debt is secured with legally pledged revenues.

Pledged Revenues – The note principal, interest, and administrative fees will be paid for with pledged revenues consisting of the first one-eighth of one percent increment of the County environmental services gross receipts tax transferred to the County pursuant to Section 7-20E-17 NMSA 1978. Pledged revenues for the fiscal year ended June 30, 2020 totaled \$92,645.

NMFA – Arsenic Treatment Facility

In July 2011, the County entered into a loan/grant agreement with the NM Finance Authority for the planning, design and construction of an arsenic treatment facility with a treatment capacity of approximately 3.4 million gallons of water per day in and around the Santa Teresa area. The terms of the agreement call for a grant from the NMFA for \$4,096,640 along with a loan totaling \$1,024,160. The interest/administrative fee on the note is 0.25% with a maturity date of June 1, 2031. Repayments to be provided by the Camino Real Regional Utility Authority (CRRUA). The County has an agreement with CRRUA, stating that CRRUA will begin make payments on the

NOTE 8 – POLLUTION REMEDIATION OBLIGATION

Certain property owned by the County has been declared a Superfund Site by the Environmental Protection Agency (EPA). The EPA has determined that the County is a responsible party along with the City of Las Cruces, which also owns part of the contaminated property. On April 20, 2005, the County and City of Las Cruces established a memorandum of understanding for a Joint Superfund Project (JSP) to work collaboratively with the EPA to complete the Remedial Investigation and Feasibility Study (RIFS) within the Superfund process. In December 2004, the JSP submitted a good-faith offer to the EPA for a Funding Agreement to achieve this objective. In April 2005, a negotiated funding agreement in the amount of \$800,000, payable to the EPA to complete the RIFS, was signed. In October 2005, the EPA and its contractor began the remaining fieldwork, which was completed in fiscal year 2007.

The County and City each received a \$3.5 million construction drawdown loan from the New Mexico Finance Authority (NMFA) to cover some of the costs of the pollution remediation project. County project costs of \$1,478,798 were funded using loan proceeds. The County is currently repaying the loan using Environmental Gross Receipt Tax funds.

The County and City also received \$243,000 for design and engineering in grant funds from the New Mexico Environment Department. All \$243,000 was applied to design and engineering costs. Construction on the project completed and remediation operations began August 2012.

The pollution remediation obligation is reported in long-term liabilities in the statement of net position (see Note 7). The pollution remediation obligation is an estimate and is subject to revision because of the price increases or reductions, changes in technology or changes in applicable laws or regulations. The County relies on the City's consultants to evaluate the site and potential liability.

On January 4, 2018, the County and City received a Unilateral Administrative Order from the EPA. The County and City are still in litigation regarding the liability. The County and the City currently share a 50/50 split on the potential liability. In civil case no. 2:17-cv-00809 JCH-GBW, a Consent Decree issued on July 30, 2020 reduced this obligation to a total of \$1,265,000 as of June 30, 2020. This consists of two payments: one for the EPA's past response costs in the amount of \$1,140,000 and one as an initial payment for the EPA's future response costs in the amount of \$125,000. The Consent Decree requires the City and County to perform the work set forth in the Unilateral Administrative Order. The Consent Decree also ordered the United States to pay the City and County \$6,389,407 for the past and future response costs of the local government entities. Those funds are earmarked to pay superfund costs.

As of June 30, 2020, the County's outstanding pollution remediation obligation was \$632,500.

The County received information on the pollution remediation obligation in the fiscal year 2020 that the obligation provided in fiscal year 2019 was both the County and City portions. As a result, a restatement was recorded to reduce the liability by half. and determined that it met the criteria to record the liability in its financial statements. See Note 20.

NOTE 9 – INTERFUND BALANCES AND TRANSFERS

The County recorded interfund transfers to reflect activity occurring between funds. Transfers and payments within the County are substantially for the purpose of subsidizing operating functions and funding various projects within the County. All transfers made during the year were considered routine and were consistent with the general characteristics of the County’s transfer policy.

The composition of interfund transfers during the year ended June 30, 2020 was as follows:

	Transfers In							Total

NOTE 10 – DEFINED BENEFIT PENSION PLAN

Plan Description – Substantially all of the Doña Ana County’s full-time employees participate in a public employee retirement system authorized under the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). The Public Employees Retirement Association (PERA) is the administrator of the plan, which is a cost-sharing multiple-employer defined benefit retirement plan. The plan provides for retirement benefits, disability benefits, survivor benefits and cost-of-living adjustments to plan members and beneficiaries. PERA issues a separate, publicly available financial report that includes financial statements and required supplementary information for the plan. That report may be obtained by writing to PERA, P.O. Box 2123, Santa Fe, NM 87504-2123. The report is also available on PERA’s website at <http://www.pera.state.nm.us>.

Funding Policy – Plan members, other than law enforcement personnel and fire fighters, are required to contribute 14.65% of their gross salary. The County is required to contribute 9.80% of general participant’s gross salary. The contribution rate is 17.80% of gross salaries for law enforcement participants (excluding detention employees). The County’s portion of law enforcement participants is 19.15% of gross salaries. Detention employees are considered general participants. The contribution rate for fire fighter members is 17.70%, and the County is required to contribute 21.90% of their gross salaries. The contribution requirements of plan members and the County are established in State statute under Chapter 10, Article 11, NMSA 1978. The requirements may be amended by acts of the legislature. Additionally, the County has elected to pick-up a portion of the employee’s contribution.

The following table details the actual contribution rates:

NOTE 11 – PENSION PLAN AND POST EMPLOYMENT BENEFITS

General Information about the Pension Plan

Plan description. *Public Employees Retirement Fund* is a cost-sharing, multiple employer defined benefit pension plan. This fund has six divisions of members, including State General, State Police/Adult Correction Officers, Municipal General, Municipal Police/Detention Officers, Municipal Fire, and State Legislative Divisions, and offers 24 different types of coverage within the PERA plan. All assets accumulated may be used to pay benefits, including refunds of member contributions, to any of the plan members or beneficiaries, as defined by the terms of this plan. Certain coverage plans are only applicable to a specific division. Eligibility for membership in the Public Employees Retirement Fund is set forth in the Public Employees Retirement Act (Chapter 10, Article 11, NMSA 1978). Except as provided for in the Volunteer Firefighters Retirement Act (10-11A-1 to 10-11A-7, NMSA 1978), the Judicial Retirement Act (10-12B-1 to 10-12B-19, NMSA 1978), the Magistrate Retirement Act (10-12C-1 to 10-12C-18, NMSA 1978), and the Educational Retirement Act (Chapter 22, Article 11, NMSA 1978), each employee and elected official of every affiliated public employer is required to be a member in the Public Employees Retirement Fund, unless specifically excluded.

Benefits provided. Benefits are generally available at age 65 with five or more years of service or after 25 years of service regardless of age for TIER I members. Provisions also exist for retirement between ages 60 and 65, with varying amounts of service required. Certain police and fire members may retire at any age with 20 or more years of service for Tier I members. Generally, the amount of retirement pension is based on final average salary, which is defined under Tier I as the average of salary for the 36 consecutive months of credited service producing the largest average; credited service; and the pension factor of the applicable coverage plan. Monthly benefits vary depending upon the plan under which the member qualifies, ranging from 2% to 3.5% of the member’s final average salary per year of service. The maximum benefit that can be paid to a retiree may not exceed a range of 60% to 90% of the final average salary, depending on the division. Benefits for duty and non-duty death and disability and for post-retirement survivors’ annuities are also available.

TIER II. The retirement age and service credit requirements for normal retirement for PERA state and municipal general members hired increased effective July 1, 2013 with the passage of Senate Bill 27 in the 2013 Legislative Session. Under the new requirements (Tier II), general members are eligible to retire at any age if the member has at least eight years of service credit and the sum of the member’s age and service credit equals at least 85 or at age 67 with 8 or more years of service credit. General members hired on or before June 30, 2013 (Tier I) remain eligible to retire at any age with 25 or more years of service

credit. Under Tier II, police and firefighters in Plans 3, 4 and 5 are eligible to retire at any age with 25 or more years of service credit. State police and adult correctional officers, peace officers and municipal juvenile detention officers will remain in 25-year retirement plans, however, service credit will no longer be enhanced by 20%. All public safety members in Tier II may retire at age 60 with 6 or more years of service credit. Generally, under Tier II pension factors were reduced by .5%, employee Contribution increased 1.5 percent and effective July 1, 2014 employer contributions were raised .05%. The computation of final average salary increased as the average of salary for 60 consecutive months.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions; At June 30, 2020, the County reported a liability of \$77,429,888 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2018. The total pension liability was rolled-forward from the valuation date to the plan year ending June 30, 2019 using generally accepted actuarial principles. Therefore, the employer's portion was established as of the measurement date of June 30, 2019. There were no significant events or changes in benefit provision that required an adjustment to the roll-forward liabilities as of June 30, 2019. The County's proportion of the net pension liability was based on a projection of the County long-term share of contributions to the pension plan relative to the projected contributions of all participating entities, actuarially determined. At June 30, 2019, the County's proportion was 2.4526%, which was a decrease of 0.0203% from its proportion measured as of June 30, 2018.

Actuarial assumptions. The total pension liability in the June 30, 2019 actuarial valuation was determined using the following significant actuarial assumptions, applied to all periods included in the measurement:

Actuarial valuation date	June 30, 2018
Actuarial cost method	Entry Age Normal
Amortization period	Level Percentage of Pay
Asset valuation method	Solved for based on statutory rates
Actuarial assumptions	
Investment rate of return	7.25% annual rate, net of investment expense
Projected benefit payment	100 years
Payroll growth	3.00%
Projected salary increases	3.25% to 13.50% annual rate
Includes inflation at	2.50%
	2.75% all other years
Mortality assumption	The mortality assumptions are based on the RPH-2014 Blue Collar mortality table with female ages set forward one year. Future improvement in mortality rates is assumed using 60% of the MP-2017 projection scale generationally. For non-public safety groups, 25% of in-service deaths are assumed to be duty related and 35% are assumed to be duty-related for public safety groups.
Experience study dates	July 1, 2008 to June 30, 2017 (demographic) and July 1, 2013 through June 30, 2017 (economic)

The total pension liability, net pension liability, and certain sensitivity information are based on an actuarial valuation performed as of June 30, 2018. The total pension liability was rolled-forward from the valuation date to the plan year ended June 30, 2019. These assumptions were adopted by the Board use in the June 30, 2018 actuarial valuation.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>All Funds - Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	42.33%	7.48%
Risk Reduction & Mitigation	21.37%	2.37%
Credit Oriented Fixed Income	15.00%	5.47%
Real Assets to include Real Estate Equity	20.00%	6.48%
Multi-Risk Allocation	<u>1.30%</u>	
Total	<u>100.0%</u>

Discount rate. A single discount rate of 7.25% was used to measure the total pension liability as of June 30, 2019. This single discount rate was based on a long-term expected rate of return on pension plan investments of 7.25%, compounded annually, net of expense. Based on the stated assumptions and the projection of cash flows, the plan’s fiduciary net position and future contributions were projected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the total pension liability. The projections of cash flows used to determine this single discount rate assumed that plan member and employer contributions will be made at the current statutory levels.

Sensitivity of the County’s proportionate share of the net pension liability to changes in the discount rate. The following presents the County’s proportionate share of the net pension liability calculated using the discount rate of 7.25 percent, as well as what the employer name’s proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.25 percent) or 1-percentage-point higher (8.25 percent) than the current rate:

<u>PERA Fund Division</u>	<u>1% Decrease (6.25%)</u>	<u>Current Discount Rate (7.25%)</u>	<u>1% Increase (8.25%)</u>
Municipal General Division	\$ 75,602,667	49,987,227	28,793,883

General Information about the OPEB Plan

Plan description – The County’s defined benefit OPEB plan, County Health Care Plan (CHCP), provides OPEB for all employees who satisfy the retirement eligibility requirements of the Public Employees Retirement Association of New Mexico (PERA). CHCP is a single employer defined benefit OPEB plan administered by the County. The County established a policy of contributing towards retirees’ health care costs through adoption of Resolution 1999-36. Resolution 2002-89 increased the County contributions for retirees under the CHCP. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

NOTE 13 – DEFERRED COMPENSATION PLAN

Doña Ana County offers its employees two deferred compensation plans created in accordance with Internal Revenue Code Section 457. The plans, available to all permanent County employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plans, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the National Association of Counties (NAC) (without being restricted to the provisions of benefits under the plan) or Voya Financial, which replaced Nationwide Retirement Solutions, Inc. in fiscal year 2020, subject only to the claims of the NAC or Voya Financial general creditors.

**STATE OF NEW MEXICO
DOÑA ANA COUNTY
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2020**

Participant's rights under the plans are equal to those of general creditors of the NAC or Voya Financial in an amount equal to the fair market value of the deferred account for each participant. All amounts of deferred compensation have been remitted to the NAC or Voya Financial, which administers the plans.

NOTE 15 – COMMITMENTS AND CONTINGENCIES

The County receives significant financial assistance from federal and state grants and entitlements. Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The County believes that any liabilities resulting from disallowed amounts will not have a material effect on the County's financial statements.

The County remains non-compliant with its state issued permits for the liquid waste facility at Mesquite, New Mexico. The New Mexico Environment Department is aware of this issue; however, as the County is aggressively trying to remedy the situation, it is not anticipated that any fines will be assessed. The County is currently completing the design phase of a construction project to remedy the situation. The County is seeking possible funding solutions for the construction phase.

Contingencies

In 2020, the County has recorded contingent liabilities on the County's Government-Wide Statement of Financial Position for \$563,500. There are multiple legal options open to the County to appeal the ruling. If the County does not appeal, it is likely these amounts would be paid within a year, however, if an appeal takes place these amounts would unlikely be paid within a year, and therefore was classified as a long-term liability on the Government-Wide Statement of Net Position.

NOTE 16 – HOSPITAL LEASE

Medical Center-Providence Hospital (Telshor Facility)

In 1966, the County and the City adopted a joint resolution to create a joint county-municipal hospital to provide medical services to all of the citizens of Doña Ana County. The hospital was constructed and operated by the City and County through a Board of Trustees until 1998, when it was leased to Memorial Medical Center, Inc. (MMCI), a New Mexico not-for-profit corporation.

On June 1, 2004, the City, the County and MMCI, jointly terminated the lease. On that date, the City and County executed a 40-year lease agreement for the hospital facilities and equipment with PHC-Las Cruces, Inc. (PHC), a New Mexico corporation and a wholly owned subsidiary of Province Healthcare Corporation, a Delaware corporation. In accordance with the lease agreement, PHC has deposited certain amounts into escrow accounts to cover certain contingencies of the hospital and paid certain hospital liabilities, including outstanding bonds. The lease transaction was recorded during fiscal year 2004.

The proceeds of the PHC lease were reported in a sub-fund of the General Fund and the resulting equity has been reserved for health-related programs and health related capital projects.

Pursuant to the Termination Agreement, MMCI began distributing its cash and investments equally between the County and the City in July 2004. MMCI retained cash to pay certain liabilities; any cash remaining at the end of the liquidation process will be distributed equally between the County and the City.

In addition, PHC made a one-time grant of \$5 million to Doña Ana County to be distributed in the sole discretion of the County and City to improve the integration of services provided by the clinics in the County operated by the federally qualified health center organizations, the hospital, and the existing family residency program and to expand the service hours of the same clinics. The grant is accounted for in the General Fund. The unexpended portion of the grant at June 30, 2020 is \$638,884.

NOTE 21 –RELATED PARTIES

An attorney in the County’s legal department serves as a contract attorney for the County’s insurance provider. From time to time, the attorney may be called on to perform legal work for the insurance provider on cases typically involving the County. During these instances, the attorney is not considered an employee of the County and does not receive compensation for time spent working on cases for the insurer. Any costs incurred using County staff and materials are reimbursed to the County.

The County is currently acting as Camino Real Regional Utility Authority’s (CRRUA) fiscal agent. They are contracted to provide multiple fiscal services, enterprise information systems management services, risk management services, and human resources management services. The contract term is for a period of 10 years from February 1, 2012 and can be renewed for an additional 5 years. CRRUA paid the County \$150,683 for fiscal year 2020.

Due to the relationship the County has with CRRUA there are related parties between the two entities. The related parties are as follows:

**INDEPENDENT AUDITOR'S REPORT INDEPENDENT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN
AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

The Board of County Commissioners
State of New Mexico, Doña Ana County and
Mr. Brian Colón, State Auditor
State of New Mexico, Office of the State Auditor

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, the budgetary comparisons for the general fund and major special revenue funds of Doña Ana County (County) as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements and have issued our report thereon dated November 30, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered County's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of County's internal control. Accordingly, we do not express an opinion on the effectiveness of County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that were not identified.

November 30, 2020

We did identify a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs as item 2020-001 that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2020-002 and 2020-003.

The County's Response to Findings

The County's response to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR
PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
THE UNIFORM GUIDANCE**

The Board of County Commissioners
State of New Mexico, Doña Ana County and
Mr. Brian Colón, State Auditor
State of New Mexico, Office of the State Auditor

Report on Compliance for Each Major Federal Program

We have audited Doña Ana County's (County) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the County's major federal programs for the year ended June 30, 2020. The County's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. Code of *Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the County's compliance.

November 30, 2020

Opinion on Each Major Federal Program

In our opinion, the County, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2020.

Other Matters

The results of our auditing procedures disclosed an instance of noncompliance which is required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as item 2020-002. Our opinion on each major federal program is not modified with respect to this matter.

The County's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified. We did identify a certain deficiency in

internal control over compliance, as described in the accompanying schedule of findings and questioned costs as item 2020-002 that we consider to be a significant deficiency.

The County's response to the noncompliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The County's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

CURRENT YEAR

2020-001 – Vendor Controls

Type of Finding: (B) Significant Deficiency in Internal Control Over Financial Reporting

Statement of Condition

On April 23, 2020, an email was received from the apparent President of a current County vendor sent to the County Accounts Payable Specialists asking to change their business address; which included an attached completed W-9 with EIN number and signature. After later review of the email address, the address was slightly different from the vendors address. The vendor wanted the address changed from Albuquerque to Las Cruces. The request was forwarded by the Accounts Payable Specialist to the Purchasing Secretary with attachments, whose responsibility was to verify the information and follow the new procedures, prior to making any changes. The Purchasing Secretary failed to follow procedures; which required calling the vendor, completing a Change in Payment Request Form and obtaining manager's approval prior to any system changes. The mailing address was changed.

Additionally, on April 28, 2020, an email was received from the same apparent President asking the Accounts Payable Specialist for the form to change the ACH direct deposit information. The Accounts Payable Specialist replied to the email with the required forms. They filled and returned the forms; along with a completed W-9 and letter from the new Credit Union. The Accounts Payable Specialist forwarded the information with attachments to the Purchasing Secretary on April 28th.

**STATE OF NEW MEXICO
DOÑA ANA COUNTY
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2020**

The Purchasing Secretary received the information on and made the changes in the Banner system. The Purchasing Secretary failed to follow procedures; which required calling the vendor, completing a Change in Payment Request Form and obtaining manager's approval prior to any system changes. The ACH banking information was changed.

The following transactions then occurred:

- On May 15, 2020 a check for \$531,373.99 was mailed to the incorrect updated address.
- On May 22, 2020 an ACH payment of \$345,255.77 was transferred to the fraudulent account.

On May 28, 2020 the vendor contracted the County Jetport department by email reporting that they had not received payments as expected. On June 4, 2020 the County Jetport department informed the County Accounts Payable Manager, who called the vendor and informed the vendor the County records indicated a change to the ACH payment information and mailing address. The vendor then informed the County they did not make any requests. The County immediately reported the incidents to law enforcement and the New Mexico Office of the State Auditor.

The County issued a stop payment on the \$531,373.99 mailed check and subsequently the physical check was received by law enforcement.

Of the remaining ACH funds of \$345,255.77, \$344,395.51 has been collected through bank recovery and an insurance claim, with the remaining \$860.26 being deemed a loss.

Criteria

The County's Security Protocol Plan for changes to current vendors, at the date of the incident is as follows:

1. The County calls the vendor to confirm a request to change the information.
2. The County sends a W-9, ACH form (which requires a new voided blank check).
3. The County then prepares a Change in Payment Request Form, which includes information about the requested change and requires a Supervisor's Signature.
4. Only after the completion of the previous items, the change to the vendor file will be made in the County system, Banner.

Cause

The County did not follow their policies and procedures for changing information in a vendor file.

Effect

Due to breakdown in controls, the County paid a total of \$876,629.76 to a fraudulent person. After recoveries the County's loss was only \$860.26. However, the County could have lost entire amount.

When controls are not followed, the risk increases that a loss or misappropriation of public funds may occur and not be detected in a timely manner.

Recommendation

The County implemented an updated Security Protocol Plan in July 2020, which includes additional segregation of duties and procedures. The County is following the updated policy and procedures. We recommend the County continue to follow the updated policy and procedures. The County is holding the recommended trainings including refresher training for Finance employees and specific training for the Accounts Payable, Purchasing, and Payroll employees on a quarterly basis. We recommend the County continue to hold the trainings.

Management Response

Because of potential fraud concerns, the County implemented additional procedures in vendor controls in February 2020. The additional procedures required the County to call a vendor who requested a change in their information to confirm the request prior to making the change. This procedure was not properly followed. The County implemented the current Security Protocol Plan procedures in July 2020, which includes additional protection by calling both the individual vendor and the bank before changes are made to vendor information. Procedures were implemented for closer supervision of employees to ensure policies and procedures for changing information in a vendor file are followed. With the new Security Protocol Plan, the department is providing the strongest protection controls. These changes are responsive to the auditor's concerns.

Security Protocol Plan

The County has updated the Security Protocol Plan, policy and procedures that are provided to the auditors. The County is strictly adhering to the updated policy and procedures.

Previously, verification from vendor was required. We have made improvements to the revised process plan requiring verification from both the vendor and the bank before a change is made to vendor records. There is additional segregation of duties. The procedures include the following:

- New verification process steps (implemented on July 24, 2020).
 - Administrative Assistant: Maintains vendor log, verifies documents are complete.
 - Purchasing Manager or designee: Verifies all documents. Calls vendor contact in Banner, on Contract, from website or other but not the same person requesting the ACH and verifies authorization. Documents the call and if passes verification forwards to Accounts Payable Manager.
 - Accounts Payable Manager or designee: Calls bank to verify bank information, calls vendor to verify Purchasing Manager or designee made the required call. Forwards to Purchasing for ACHs setup.
- Address verification for checks over \$100,000 and for Grey forms is a new requirement.
- Enrollment/cancellation/revision ACH form is revised for new and existing vendors. Requires the submittal of an updated W-9 and voided check or bank verification letter.
- Vendors are encouraged to use ACH instead of checks.
- Information Technology (IT) added triggers in Banner, starting October 15, 2020, to provide notification of ACH changes for vendors. Email alerts are sent to Purchasing

Training

The County held a detailed training for all Finance employees on August 28, 2020 and holds refresher specific training for the Accounts Payable, Purchasing, and Payroll employees on a quarterly basis.

One-hour Finance Security Protocol training was held on August 28, 2020, presented by the Financial Services Director, IT Director and Purchasing Manager. All Finance staff were required to attend the training. The total in-person attendees were twenty-four and Webex attendees were six. A recorded session was provided to the two Finance employees who were on leave and they completed the training. The training covered examples of fraud incidents, password and email security, internal controls, point of contacts, updated process, vendor verification and the use of forms.

Purchasing Manager conducted a refresher training on October 29, 2020 on cyber fraud with a video and power point slides from the August Finance Security Protocol training. There were eight attendees that comprised of all Purchasing staff. Accounts Payable and Payroll had one-on-one refresher training with all the employees from October 9 through October 13, 2020.

Finding resolved timeline:

Statement of Condition

During testing of the major program, State Homeland Security Grants, there were the following issues noted with New Mexico State Department of Homeland Security and Emergency Management (NMDHSEM) subgrantee reporting requirements:

- The “Final Narrative Report” report was not completed for the EMW-2017-SS-00032-S01-Dona Ana County grant, which would have been due within 45 days of performance end date of September 30, 2019.
- The “Final Narrative Report” report was not completed for the EMW-2017-SS-00105-S01-Dona Ana County OPSG grant, which would have been due within 45 days of performance end date of December 31, 2019.

Criteria

Per the Sub-Grant Agreement:

- Final Narrative Report is a summary report, evaluating project activities and measuring performance against project goals and objectives for the entire performance period, and is required in addition to the last quarter report. The final report is due 45 days after the end of Period of Performance.

Cause

Due to staff changes, training regarding final narrative completion was not communicated to the incoming staff member.

Effect

The County is not reporting the financial status of their projects to their grantor, which could cause additional non-compliance issues with the grant.

Recommendation

We recommend the County complete and submit the Final Narrative Report for the two 2017 grants. Additionally, we recommend the County complete and file their reports by the deadlines as required by the subgrantee agreement.

Management Response

- Copies of Quarterly Performance Progress Reports for the EMW-2017-SS-00032-S01-Dona Ana County grant have been provided to the auditors. The Final Narrative Report for EMW-2017-SS-00032-S01-Dona Ana County grant contain similar information as Quarterly Performance Progress Reports. The grant has been closed; however, a Final Narrative will be forwarded for the 2017 SHSGP per auditor request. OEM staff has implemented internal processes and will continue to be in contact with DHSEM regarding required reporting and timelines in order to be in compliance with grant requirements. The County will complete and file their reports by the deadlines as required by the subgrantee agreement.
- The Quarterly Performance Progress Reports for the EMW-2017-SS-00105-S01-OPSG grant has been provided to the US Border Patrol (USBP) and Division of Homeland Security and Emergency Management (DHSEM) through the Homeland Security Information Network (HSIN). The Final Narrative Report for EMW-2017-SS-00105-S01 OPSG grant contain similar information as Quarterly Performance Progress Reports. The grant has been closed, however a Final Narrative Report for EMW-2017-SS-00105-S01 OPSG grant has been prepared on 11-25-2020 and forwarded to granting agency per auditor request. The County will complete and file their reports by the deadlines as required by the subgrantee agreement.

Finding resolved timeline:

- The 2017-SS-00032-S01-Dona Ana County (SHSGP) final narrative will be submitted to DHSEM by December 14, 2020.
- The EMW-2017-SS-00105-S01 OPSG final narrative was submitted to DHSEM 11-30-2020.

Designation of employee position responsible for meeting this deadline:

- OEM Secretary (TA-EM Specialist)
- Border Operation Support Coordinator

2020-003 – UNCLAIMED PROPERTY

Type of Finding: (C and G)—Finding that Does Not Rise to the Level of a Significant Deficiency (Other Matters) Involving Internal Control Over Financial Reporting and Non-Compliance with State Audit Rule, NM State Statutes, NMAC, or other entity compliance

Statement of Condition

As of June 30, 2020, the County had \$13,723.59 in outstanding checks in their main operating account, which were dated prior to July 1, 2019. The County did not follow their policy to clear outstanding balances each year, as their policy requires.

Criteria

Per the Uniform Unclaimed Property Act Section 7-8A-1 through 7-8A-31 NMSA 1978, stale-dated checks should be reported to the State of New Mexico on a regular basis.

Per the County's Policy on Unclaimed Property:

- Every month a report on outstanding checks over two months old will be generated.
- An effort to locate the owners of the checks which are one-year outstanding will be made.
- If the owner is located, the check will be voided, and a new check issued.
- If the owner is not found, due diligence will be done as required by the NM Unclaimed Property Act state statute 7-8A-7.
- A report on unclaimed property will be filed before November 1 of each year and cover the twelve months preceding July 1 of that year, as required by state statute 7-8A-7. A list of owners of unclaimed property should accompany the report and be submitted to the Unclaimed Report Office of the Taxation and Revenue Department.

Cause

The County has been working to determine what makes up the outstanding balances on their bank reconciliations and was not able to determine all outstanding balances timely.

Effect

Reasonable efforts to return funds that do not belong to the County are not being performed as required by state statute and County policy.

Recommendation

As of October 30, 2020, the County has updated their policy for outstanding checks. We recommend the County research outstanding checks in County bank accounts timely and follow their policy for dispositioning unclaimed checks.

**STATE OF NEW MEXICO
DOÑA ANA COUNTY
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2020**

Management Response

The County has a policy per the Uniform Unclaimed Property Act since 2009 per section 7-8A-1 through 7-8A-31 NMSA 1978. A copy of the policy has been provided to the auditors. Also, the County reports and transfers unclaimed checks to the State of New Mexico on a regular basis. Copies of the reports have been provided to the auditors.

Unclaimed Property tax checks require more attention and proper rules must be adhered to; we do not want to provide the checks to Unclaimed Property without proper research and proper decision. We have updated the policy for unclaimed property that was approved and enacted in 2009. This updated policy is in effect and provides a clear timeline and procedure for the disposition of checks. In addition, the office has reviewed and identified check owners that still have property tax liabilities. Since we are done with our research, the office will disposition these funds back to the owner by providing a credit to their tax liability instead of transferring to unclaimed property. For any owners that have not been identified, the office will ensure that the outstanding funds be sent to the State no later than November 1, 2021 per the Uniform Unclaimed Property Act.

Finding resolved timeline: November 1, 2021

Designation of employee position responsible for meeting this deadline: Treasurer's staff including, Administrative Assistant and the Accountant III. County Chief Deputy Treasurer shall supervise the course of action.

2020-001 – Vendor Controls

Type of Finding: (B) Significant Deficiency in Internal Control Over Financial Reporting

Statement of Condition

On April 23, 2020, an email was received from the apparent President of a current County vendor sent to the County Accounts Payable Specialists asking to change their business address; which included an attached completed W-9 with EIN number and signature. After later review of the email address, the address was slightly different from the vendors address. The vendor wanted the address changed from Albuquerque to Las Cruces. The request was forwarded by the Accounts Payable Specialist to the Purchasing Secretary with attachments, whose responsibility was to verify the information and follow the new procedures, prior to making any changes. The Purchasing Secretary failed to follow procedures; which required calling the vendor, completing a Change in Payment Request Form and obtaining manager's approval prior to any system changes. The mailing address was changed.

Additionally, on April 28, 2020, an email was received from the same apparent President asking the Accounts Payable Specialist for the form to change the ACH direct deposit information. The Accounts Payable Specialist replied to the email with the required forms. They filled and returned the forms; along with a completed W-9 and letter from the new Credit Union. The Accounts Payable Specialist forwarded the information with attachments to the Purchasing Secretary on April 28th.

The Purchasing Secretary received the information on and made the changes in the Banner system. The Purchasing Secretary failed to follow procedures; which required calling the vendor, completing a Change in Payment Request Form and obtaining manager's approval prior to any system changes. The ACH banking information was changed.

The following transactions then occurred:

- On May 15, 2020 a check for \$531,373.99 was mailed to the incorrect updated address.
- On May 22, 2020 an ACH payment of \$345,255.77 was transferred to the fraudulent account.

On May 28, 2020 the vendor contracted the County Jetport department by email reporting that they had not received payments as expected. On June 4, 2020 the County Jetport department informed the County Accounts Payable Manager, who called the vendor and informed the vendor

the County records indicated a change to the ACH payment information and mailing address. The vendor then informed the County they did not make any requests. The County immediately reported the incidents to law enforcement and the New Mexico Office of the State Auditor.

The County issued a stop payment on the \$531,373.99 mailed check and subsequently the physical check was received by law enforcement.

Of the remaining ACH funds of \$345,255.77, \$344,395.51 has been collected through bank recovery and an insurance claim, with the remaining \$860.26 being deemed a loss.

Criteria

The County's Security Protocol Plan for changes to current vendors, at the date of the incident is as follows:

1. The County calls the vendor to confirm a request to change the information.
2. The County sends a W-9, ACH form (which requires a new voided blank check).
3. The County then prepares a Change in Payment Request Form, which includes information about the requested change and requires a Supervisor's Signature.
4. Only after the completion of the previous items, the change to the vendor file will be made in the County system, Banner.

Cause

The County did not follow their policies and procedures for changing information in a vendor file.

Effect

Due to breakdown in controls, the County paid a total of \$876,629.76 to a fraudulent person. After recoveries the County's loss was only \$860.26. However, the County could have lost entire amount.

When controls are not followed, the risk increases that a loss or misappropriation of public funds may occur and not be detected in a timely manner.

Recommendation

The County implemented an updated Security Protocol Plan in July 2020, which includes additional segregation of duties and procedures. The County is following the updated policy and procedures. We recommend the County continue to follow the updated policy and procedures. The County is holding the recommended trainings including refresher training for Finance employees and specific training for the Accounts Payable, Purchasing, and Payroll employees on a quarterly basis. We recommend the County continue to hold the trainings.

View of Responsible Officials and Corrective Action Plan

Because of potential fraud concerns, the County implemented additional procedures in vendor controls in February 2020. The additional procedures required the County to call a vendor who requested a change in their information to confirm the request prior to making the change. This

procedure was not properly followed. The County implemented the current Security Protocol Plan procedures in July 2020, which includes additional protection by calling both the individual vendor and the bank before changes are made to vendor information. Procedures were implemented for closer supervision of employees to ensure policies and procedures for changing information in a vendor file are followed. With the new Security Protocol Plan, the department is providing the strongest protection controls. These changes are responsive to the auditor's concerns.

Security Protocol Plan

The County has updated the Security Protocol Plan, policy and procedures that are provided to the auditors. The County is strictly adhering to the updated policy and procedures.

Previously, verification from vendor was required. We have made improvements to the revised process plan requiring verification from both the vendor and the bank before a change is made to vendor records. There is additional segregation of duties. The procedures include the following:

- New verification process steps (implemented on July 24, 2020).
 - Administrative Assistant: Maintains vendor log, verifies documents are complete.
 - Purchasing Manager or designee: Verifies all documents. Calls vendor contact in Banner, on Contract, from website or other but not the same person requesting the ACH and verifies authorization. Documents the call and if passes verification forwards to Accounts Payable Manager.
 - Accounts Payable Manager or designee: Calls bank to verify bank information, calls vendor to verify Purchasing Manager or designee made the required call. Forwards to Purchasing for ACHs setup.
- Address verification for checks over \$100,000 and for Grey forms is a new requirement.
- Enrollment/cancellation/revision ACH form is revised for new and existing vendors. Requires the submittal of an updated W-9 and voided check or bank verification letter.
- Vendors are encouraged to use ACH instead of checks.
- Information Technology (IT) added triggers in Banner, starting October 15, 2020, to provide notification of ACH changes for vendors. Email alerts are sent to Purchasing Manager and Accounts Payable Manager. This allows for closer supervision of employees to ensure policies and procedures for changing information in a vendor file are followed.

Training

The County held a detailed training for all Finance employees on August 28, 2020 and holds refresher specific training for the Accounts Payable, Purchasing, and Payroll employees on a quarterly basis.

One-hour Finance Security Protocol training was held on August 28, 2020, presented by the Financial Services Director, IT Director and Purchasing Manager. All Finance staff were required to attend the training. The total in-person attendees were twenty-four and Webex attendees were six. A recorded session was provided to the two Finance employees who were on leave and they completed the training. The training covered examples of fraud incidents, password and email security, internal controls, point of contacts, updated process, vendor verification and the use of forms.

Purchasing Manager conducted a refresher training on October 29, 2020 on cyber fraud with a video and power point slides from the August Finance Security Protocol training. There were eight attendees that comprised of all Purchasing staff. Accounts Payable and Payroll had one-on-one refresher training with all the employees from October 9 through October 13, 2020.

Finding resolved timeline:

Security Protocol Plan

Implemented on July 24, 2020 and will continue using through June 30, 2021 and beyond.

Training
